**Happy Birthday Forums, you're 3! - December 18th, 2006**

It's hard to believe another year has gone by! More info [here](#).

**0.2.8.2.1 - August 5th, 2006**

This version of Armagetron Advanced fixes some security flaws. It is recommended that you update to this version as soon as possible. Available on the download page as usual.

**Site Changes - August 4th, 2006**

Hosting of the main site has moved to SourceForge's servers. A downside to this is no more IPv6 support, which luckily wasn't being used very much anyway. Also for the time being the online server browser is disabled until it's a) fixed and b) works here.

**0.2.8.2 - June 16th, 2006**

The downloads page has been updated to reflect the not-as-recent-as-I'd-like-you-to-believe release of 0.2.8.2. Bugfixes, updates, and I can't remember what else. Enjoy.

**April Fools - April 1st, 2006**

Sorry everyone, I couldn't resist. From around 00:10 to 18:50 I had a front page announcing the discontinuation of Armagetron Advanced. [Just kidding](#).

**0.2.8.1 - Sometime between the post after and the one before**

I accidentally delted the news post that announced 0.2.8.1. Here's my surrogate replacement. It's a bug fix release, please upgrade from version 0.2.8\_beta1 to 0.2.8.0 to this version at it addresses critical security flaws. More information is available [here](#) and downloads [here](#).

**0.2.8.0 - March 18th, 2006**

Great news everyone! The long awaited (and tested) 0.2.8.0 version of Armagetron Advanced has

Done

Without prejudice to your legal rights, if you forget your password and can not validate your account to Oath, you acknowledge and agree that your account may not be accessible to you and that any data related to the account may not be available.. If you have the bad ending, you are a pretty cool guy You will now notice (Figure 4) the Police option, which allows you to choose whether to throw a player out of the game or silence his persistent and rude conversation.. In addition to the regular features of your standard FPS game, you can change configuration settings, especially in the context of network connectivity, meaning that you are a loser because you spend more time finding secret items.
